the Board of Regents tomorrow. Dr. Julio Leon, interim president, who wrote the proposal, said, "This proposal represents many of the recommendations faculty members have given me. Many could be better off without the areas of concern have been addressed in this proposal. Any faculty Another complaint expressed evaluation system cannot satisfy everyone, but this appears to a

decided. Their suggestion was to is passed it may need revising at a trained to deal with the day-to-day the communications department, made a motion to accept the Faculty Evaluation proposal. After it cerned about the interpretation of

long discussion of the policy.

Evaluation wins because 'it's best yet'

A major complaint against the proposal dealt with the system of merit bonuses established. Dr. Joseph Shields, mathematics and science senator, said, "One cannot pete for one." presume that excellence is uniformly and randomly distributed across campus. Each department may not have one excellent member while others have more than one."

While most departments affirm- will have to be revised. ed the proposal, mathematics and science found the inconsistencies to be so many that none of their faculty could support it, and only half would if the proposal could be amended.

Many problems were pointed out, mostly dealing with merit and salary raises. Members were conwas seconded, the group began a "a standard raise," whether it

meant on a percentage or across the board basis. One senator pointed out, "Administration only has to live a year in order to receive a pay raise while faculty must com-

The proposal offered no basis for a promotion decision to support the current promotion policy. This raised the question of whether or not the college's promotion policy

Why there are not an evaluation of administrators or merit bonuses for them, the fear of the merit system's leading to favoritism, the assignment of merit awards to departments, and even sexist language in the proposal were all pointed out in the discussion.

In response Leon said, "I do not expect this document to work in a (Continued on page 2)

The Chart wins award in region

The Chart has been named a Southwest Regional Finalist for college newspapers' highest honor-The Pacemaker Award of the Associated Collegiate Press.

In judging of last year's editions of the newspaper, The Chart has been chosen as one of the four best published by colleges and universities in the southwestern part of the United States. Other finalists in the region are The Shorthorn of the University of Texas, the Maroon of Loyola University of New Orleans, and The Index of Northeast Missouri State Univer-

Some 22 college and university newspapers from across the nation have been chosen as finalists, and all will receive special recognition at the national convention of the Associated Collegiate Press at the Chase-Park Plaza Hotel in St. Louis on Saturday evening, Oct. 30. Five will receive The Pacemaker Award as the best in the nation.

An official of the ACP who telephoned The Chart with the news yesterday said that The Chart was "definitely one of the 10 best in the nation" and that being selected a regional finalist was "a highly significant accomplishment and achievement."

To qualify for the competition, a newspaper must receive an All-American rating with all five possible marks of distinction for writing, coverage, editing, layout, and graphics. Those newspapers receiving such ratings then are compared with one another for udging.

Chad Stebbins was editor-inchief of last year's Chart. He is now a graduate assistant in mass communications at Central Missouri State University in Warrensburg and will attend the St. Louis convention to represent The Chart along with John Baker, this year's

Nick Varner, world billiard champion, was in the Lion's Den yesterday to exhibit his trick shots to Missouri Southern students. He explained that trick shooting was the fun part of billiards, reserving serious concentration for competition.

New hours at library bother few

Reduced library hours at Missouri Southern have resulted in complaints from many students.

Tim Capehart, a junior and vice president of the Student Senate, said, "I think students are definitely inconvenienced by the new library hours, especially since it is no longer open on Saturdays."

Brian Wotring, freshman Senate member, said, "Although I don't think too many people miss the extra hour each night, it could come in handy at times. Students who stay on campus over weekends miss having the library available for study."

Junior Senate member Jay Chism, an employee at the library, said, "There hasn't been much complaint regarding the new hours, and I enjoy quitting an hour early. I suppose that even though there are not that many students present at night, we need to keep it open."

In agreement with Chism was junior Mindy Woodfill who said, "It's a school service. The new hours are not meeting the needs of the students."

However, Elmer Rodgers, head librarian, said he has not received any comments concerning the new hours.

'So far the new hours have been satisfactory," said Rodgers.

Changes were made in library hours in hopes of eliminating three problems. Adequate student help has been unobtainable with approximately \$6,500 of the \$20,000 alloted for work study remaining unused. Tight budgeting was a contributing factor in establishing new hours. Additionally Rodgers feels the new schedule has promoted more efficient use of library hours.

"We've never had a counter at the door, but very little use is made of the library between 9 and 10 p.m.," said Rodgers.

\$560,000 in requests gets whittled to \$65,000 for equipment

Requests totaling \$560,000 were trophotometer. submitted for the \$65,000 allocated for equipment in this year's college budget.

In the School of Arts and Sciences \$9,808 has been allocated to the biology department. "About \$1,000 of this goes toward buying models-such as models of organs," said Dr. Ray Malzahn, dean of the School of Arts and Sciences. The rest of this money is being used to equip a laboratory state. with desks.

Some \$4,000 has been allocated for the purchase of equipment in the communications department. This is primarily for the purchase of a 1/4-inch Sony video recorder," said Malzahn.

In the area of physical sciences the allocation of \$4,857 goes toward the replacement of equipment for analytical chemistry, such as the purchase of a spec-

The \$300 allocated towards the English department goes to the purchase of a second-hand typewriter. "At theis moment, I have not

heard of losing any equipment funds due to the recent two percent School of Technology. budget cut, " said Malzahn. In the School of Technology, the

\$8,300 allocated also includes 50 percent matching funds from the said Maupin. These funds, in the dental lab,

are mainly for replacement of items that have been in use since the dental program began in 1975. These items include lights and air-driven hand pieces.

In the automotive department, their share is primarily for adaptions to new model cars. Also, service manuals for many common makes of cars are going to be pur-

In the drafting and design shop the funds are mainly for the replacement of worn-out materials.

"In the area of industrial arts we really need additional equipment, but we can hope for next year," said James Maupin, dean of the

In the machine shop, "We are trying to become more current and increase our technical aspects,'

"As of yet, I have not received word of losing matching funds, but I could receive a telephone call at any moment. One way or another, we'll survive. We just have to be pretty austere in our purchases," said Maupin.

"We have received action of granting matching funds from the state," said John Tiede, dean of the School of Business. Six items for the business department have been ordered using the \$5,850 allocated

to that department. "These items include a word processor and five typewriters. Every year we replace these typewriters on a rotation basis, said Tiede. "We hope that since these funds have been committed to us, that nothing will

change, said Tiede. The closed-circuit television center has been allocated \$7,815 for equipment purchases. "This money is going towards replacement of equipment that has reached its life expectantcy. We are experiencing numerous malfunctions almost daily," said Wallace Matthews, director of the closed-circuit classrooms, said Snyder. TV center.

"We are mainly purchasing 'bare-bones' black-and-white equipment that is needed to produce video tapes for instructional purposes," said Matthews.

"Some 98 percent of our services

director of IMC.

The number A category indicates the IMC's first priority: maintaining enough equipment to function. The funds allocated to the IMC will

Randy Sparks:

Poor playing field causes permanent injury

By Carla Powers

Poor surface conditions of an area softball field are to blame for permanent damage of a young man's right hand.

of breaks to his fingers while playing softball April 25 of this year. Injuries occurred when the 22-yearold Missouri Southern student allegedly dove back to base.

First base is where the action took place for Sparks. It involved a ball which took a path down the line to the first baseman, causing Don Henson:

the trip to second base to be postponed.

"I was running to second but a, line drive stopped me." Sparks commented. "So, I dove back to first and buried my hand under the Randy Sparks suffered a series bag." Witnesses say that gravel and rocks line the bases on the field where the teams play. One lady remarked, "Considering the shape the field is in, it's a wonder that Randy wasn't hurt any worse."

After the accident, he reported having a strange feeling of pain in his hand. At home, he cleansed the cuts thoroughly. Later, swelling

hospital. Suspecting a break, the doctor ordered x-rays of the hand. It was confirmed that two fingers had been broken, one of which had four separate chips to the bone.

Surgery followed the next day. Pins were placed into the finger with the most damage. A cast was then formed over the hand and wrist to allow the breaks to heal for SIX weeks.

School work became nearly impossible to do. He could not write with his hand at all the first three weeks. "It was hard to stay ahead

After three years in Saudi Arabia, US provides culture shock

By Julie Burrows

"It's like a culture shock," says Don Henson in reference to his arrival back in the United States, after a three-year residence in Saudi Arabia.

The 21-year-old, Joplin man, who is currently a business major at Missouri Southern, has experienced more cultures and seen more country during a recent three years than some will in a lifetime.

Henson joined his parents in Saudi Arabia in 1978. They had

father, who is with the Department of Defense, Corps of Engineers, accepted a position.

Henson's trip to Saudi Arabia included a two and one-half week stay in Germany, where he took a

"Germany is probably one of the cleanest countries I've been in," Henson says, adding that a \$200 fine is issued individuals whose lawn, house and surrounding area do not meet certain clean standards set by town officials.

schools in Saudi Arabia, Henson also liked to play pool and had a attended his first year of school in the country at Mallorca High School, a private schol located in the Baltic Islands. This school was also the center of learning for 12-hour boat trip on the Rhine British, Swedish, German, Spanish and Iranian students with approximately one-third of the student body being composed of

EDITORIAL

Poles await return of union leader

Solidarity has been banned by the Polish Parliament and although provisions have been made to establish a "new set of unions," unrest will continue until Lech Walesa is released to lead the union he fought to form.

Martial law, imposed Dec. 13,1981, has been keeping nearly 10 million Poles from showing their support of the union through strikes. Now that the union is outlawed protests are occuring in the shipyards of Gdansk, where they first started in August 1980. These protests will be put down by the military government, as have the few that have arisen while martial law has been in affect.

Poland will remain under martial law because the voice of the people is not represented. Parliament outlawed Solidarity by passing a bill introduced by Supreme Court Chief Justice Wladyslaw Berutowicz, by a large margin. Wladyslaw stated that the bill "fulfilled the agreement made with workers," at Gdansk over two years ago. This statement shows no sign of trying to satisfy the people's wants, but sounds like an escape from the threat of breaking a contract. In this manner they are using the document as a tool against the union activists. Activists are demanding the release of Walesa and being paid no heed.

President Reagan has announced the nulification of Poland's "most-favored-nation" tariff status. Only political rhetoric has the action on hold.

Although other sanctions against Poland have been instituted since the early days of martial law, United States officials must remain in the background of this dispute. U.S. support is definately needed, but sanctions placed on Poland will cause more economic troubles that translate to problems only humans can incur. Winter is approaching and Poles have been low on necessities too long already. More economic sanctions will be passed on to the consumers which lowers their buying power lower yet, intensifying civil disobedience.

Poland's military regime must not be given any reason to claim U.S. involvement is even a slight factor of the problem. The Soviet Union is accused of putting pressure on the Polish government from the onset of the Solidarity movement. Along with pressures exerted by Eastern bloc nations, East Germany and Czechoslovakia, Poland was forced to inact martial law and suspend Solidarity. The U.S. took measures against the Soviet Union to implicate the dissatisfaction over this "strong-arm" technique.

Recent reports from Gdansk where protests have been staged suggest that young people are the most active. This is a good sign, for young people today are leaders tomorrow. Maybe one of those "young people" should take Walesa's leadership role until he is released from captivity, whether it be one more day or one more year.

It is very important that outside interference is kept to a minimum during this crisis for the Polish people. Help should be in the form of contributions to groups helping to provide Poles food and other "necessities." CARE, Catholic Relief Services, and Project Hope are all working for the people of Poland.

Troublesome times often produce a unifying effect. This is a fight that the Poles must win essentially on their own. And no one should take anything away from their "solidarity" by interfering politically. In the end they will come out the victor and a change in government will have to be made. Until that time comes candles will burn and Solidarity will wait for the return of its leader.

Editor's Column:

Massacre misleads some to censurenation

By Traci Scott Excutive Manager

Scenes of twisted, battered bodies lying in pools of blood sickened the stomach and horrified the mind as one tried to comprehend the recent West Beirut massacre. The victims were not soldiers, well-armed and combative. No, the dead were civilians-men, women, children and elderly Palestinians. They were not merely killed, but raped, mutilated and tortured.

Naturally no one wished to recieve the blame for such an atrocity. However, contradiction and distortion of facts did not prevent the rest of the world from directing responsibility for the massacre toward Israel and Christian militiamen. Strangely enough, the Christian militiamen, evidently responsible for the actual murders, haven't received as much condemnation for their role in the murders as have the Israelis. It seems the militiamen acted in keeping with their reputation as a ruthless and bloodthirsty people, but this does not make their actions any more excuseable.

Israel has been portrayed as a passive, but knowledgable bystander at best and as the "behind the scenes" aggressor at worst. The animosity bet-

ween Muslims and Christians is well-known. Even so, the Christians were given permission to enter the Palestinian refugee camps under the premise of ridding the areas of remaining fighters. Israeli soldiers stationed outside of the camps denied any knowledge of the massacre, despite reports from bystanders of guns being fired only in one direction. Claims have been made that Israel allowed christian forces to enter the camps in effort to keep their own losses at a minimum and to lower Israeli casulties.

These charges and others leveled against Israel present a critical situation for the country. Israel's position in world affairs has been affected both immediately and for the future. Several countries quickly issued condemning statements and announced boycotts against Israel. The massacre has added complications to mid-east negotiations, lessening the likelihood of the acceptance of any peace proposals. Arab nations have vowed retaliation. The P.L.O. has gained support and sympathy for its cause. Finally, the massacre is the latest in a series of events that has resulted in U.S. disenchantment with Israel.

In the long run the event contributes to the possibility of increased anti-Semitism. Many nations seem eager to denounce Israel for its role in 6 massacre, knowing that nation's history steeped: moral righteousness. Israel is suffering strong criticism since its apparent involvement is so out character with the nation's past. Radicals will the massacre as justification enough for further by rorist acts. No one understands this better than b people of Israel.

As word of the massacre spread, Israelis wa quick to demand a thorough investigation into the matter amidst cries for Prime Minister Begin resignation. Protests were staged by the people Israel against Israeli involvement in the Wer Beirut incident, even as prominent Jewish leade issued world-wide denunciations of the occuren Several officials resigned in protest of Begin refusal to launch a full-scale investigation of the matter.

The people of Israel have pleaded that judgene of the nation as a whole be postponed until more in formation becomes available. Certainly those guilt of the carnage should be brought to justice. But the guilt of a few must not be used to censure an entir nation, nor should it be allowed to spread furthe misunderstanding and hatred toward the Jewish tion.

In Perspective:

Love of learning drives faculty to achieve

By Dr. Judith Conboy Faculty Senate President

The faculty: dedicated, intelligent, highly motivated, active, informed, strange, demanding, egocentric, authoritarian. From panegyrics to pejoratives, a flood of descriptors come to mind when one thinks about the faculty. How proud I am to be a service-based economy which requires workers among its ranks.

For each faculty member there is a primary devotion to, a fundamental love of, a discipline: sociology, mathematics, literature, economics, music, computer language, psychology . . . For this group of people some insatiable curiosity, some desire to know and understand, to put information together in a unique way has driven them to work and to acquire advanced degrees. They have been willing to spend long hours in a library, or in a laboratory, or in a gym, or on a research project with little expectation of recognition or individual reward

beyond the knowledge they have gained or a special skill they have acquired.

For me, the faculty is a group to be respected; and, I believe for the community at large, it is a group to be protected. Collge and university faculties are information specialists in a society that demands more and more information. Our students go out to who have a framework for thinking systematically and logically and second, have a knowledge of how organizations operate. Each discipline provides the student with a special understanding of the human condition and a method for structuring information. The faculty guides the students in the acquisition of these skills.

If the faculty's devotion is to a discipline, its responsibility is to teaching. Going into the classroom to teach the same subject semester after semester could result in a sharper, better presentation, or an anesthetized faculty. Many factors play a role in the outcome (and they will not be the subject

of this essay), but one thing is certain: Never is it is same class.

Each new group of students has an ethos of it own. Each new group of students is a challeng each brings its own special problems, its outster ding moments of discovery and agonizing decision about who shall pass or fail.

At the beginning of each semester there is a tesion in the air when the faculty assembles. While some might argue the source of the tension is a cr rent political issue which dominates the faculty's conversation, underlying it all is the excitement of returning to the classroom. As one walks up an down the halls of the various building observing faculty before the classroom, a series of mini-drame unfolds. There is a commitment of the self to the rele of instructsor-arms extend, wide sweeping letter are drawn on the board, effortless choreographic take place behind, around and in front of the lecten at the center of the room. They, the faculty, we as at our best. We are getting to share what we know

Letters

Student Rights

Note: The following is an open letter to students, submitted to The Chart for publication.

Students-Beware!

You have rights, too! You may have had occasion this semester (or any semester, for that matter) to be placed in what seemed like a hopeless situation concerning an unfair or ineffective instructor.

If you have an instructor you feel is not teaching you tell them! Make them teach you! Don't feel intimidated by the power of their position. They're here to do a job and that job is to teach you, or at least help you learn!

If a whole class is affected by an instructor's "inability" to teach-it is more than likely that should be looked into.

On an individual basis, go to the instructor first. If you feel dissatisfied with the results after

this conference, go to the head of whatever department the instructor is a part of. If you still feel all's not well, you have two alternatives: (1) Consult a counselor and see if it would be advisable to drop the course, or (2) go to the next step up over the department head and state your case.

Don't ever feel that you have no choice in an unfair situation, because you do. And there are plenty of administrators and faculty concerned about the quality of education on this campus who would be more than happy to help Dear Pete: you through your dilemma.

bring a situation to the attention of noted for large, talented and highly the right people, you may save a - subsidized marching bands. fellow classmate a lot of heartache However, "The Pride's" perforlater. There is nothing more discouraging than a feeling of failure brought on by a poor instructor. This could be avoided if the right people are made aware of reminiscent of a "Las Vegas Style" the problem. Otherwise it will go on undiscovered semester after

ly successful students by scaring them out of their original field of study or out of college altogether. Don't be afraid to speak up if you

have cause to. You have rights,

Pauline Thomas

Good Job

Note: The following is a letter to Pete Havely, director of the Lion Pride Band, a copy of which was sent to The Chart for publication.

Michigan State, Southern Cal., If you have the opportunity to and other major universities are mance last Saturday evening [Oct. 2] was nothing less than magnificent. The music, dancing, costumes and precision routines were stage production.

Although we Lion fans have no semester and ruin a lot of potential- right to expect such superb entertainment for the price of a football ticket, I want you and your cast of talented students to know that the time, effort and energy are noticed and greatly appreciated.

One wonders what might be possible with more scholarships for music students, more financial assistance and more media coverage? Sincerely.

> J. Merrell Junkins Professor of Psychology

Thank You

Note: The following is a letter to the employees of Missouri Southern.

Thank you all for the gorgeous bracelet and for attending the reception held in my honor.

It was a beautiful gesture of friendship and I will always remember you and my years at MSSC.

God bless you all, and my very best wishes for the future.

Gratefully. Carolyn Billingsley

Francis Pham, a native of Viet Nam and now an art major at Missouri Southern, is at work on a piece of sculpture his current favorite art form. (Far left) A finished piece by Pham is at the immediate

By Sherry Grissom

Desiring to have freedom and believing everyone should have a chance to experience it, Francis Pham left Viet Nam about seven years ago and came to the United States in search of that freedom.

"Viet Namese like freedom, and I think here I have found the freedom I was looking for," Pham said. "There is more freedom here than what I thought there would be."

He not only found the freedom he was looking for when he arrived, he also found that the American people were willing to help the new-comers get established when they arriv-

"We were surprised to begin with, but Americans are a vay nice people. The people here helped us become accustomed to the life style. Language is the biggest problem."

Since living in the United States, Pham has lived in California, Nebraska, and Missouri. In each of these states he has found "very kind people."

He liked the United States so much that on March 26, 1982, he became a naturalized citizen. "I feel that it is a fair system they use in naturalizing a citizen," said Pham. The test given to those desiring to become Americans is an

"oral exam over government, laws, congress, and the constitution. I was also advised of my rights as a citizen," he said.

He also believes that the "United States is a fair form of government that would be good for all countries."

Besides a difference in the running of the government in America, Pham has also noticed a difference in the education system while living here.

"I think the way of education in America from elementary school through college is a good system of education" Pham said.

He said that education is different in Viet Nam. "Before 1960 Viet Nam belonged to the French system of education. After that, Viet Nam belonged to the United States system of education until 1975. After 1975 I don't know much about what the communists do, because that is about the time I came over here."

Pham can speak on the topic of American education from experience. He attended the University of Nebraska at Lincoln where he became interested in art, before coming to Missouri Southern.

He said his interest in art came about "because I thought that it might help me become more aware of myself. At this time sculpture is my main interest in the field of art, but after I work with different forms of art I may become interested in some other form."

He has a talent for drawing. Three of his drawings were published in The Winged Lion, a campus literary magazine.

His plans for furthering his education are undetermined at this time. "It depends on whether I can study or not, but I would like to graduate from here because the teachers are good about helping the students, especially in the art department." He is planning to receive his bachelor of arts degree in about a year and a half.

Pham also has other interests that keep him occupied. "I like playing volleyball and ping pong. I also like to sing and play the accordion or the organ, but I don't think I do it too well. I like to work with Boy Scouts more than anything else."

He said this interest came about because "I like working with young people and helping them. I had a troop in Lincoln, Neb., and there were about 25 boys in it. I was a scoutmaster for the troop. I was also district commissioner in the Viet Nam Boy Scout Association.

Currently Pham does not have the pleasure of working with a Boy Scout troop, but he does get to spend time with young people by driving a bus for McAuley High School.

Capt. John Rousselot

Rousselot can answer questions on ROTC

By Kerry Graskewicz

If you ever have any problems understanding or realizing the advantages of enrolling in army ROTC (Reserve Officers' Training Corps), Capt. John Rousselot can answer and clear up any questions.

Born and reared in Missouri. Rousselot grew up with a military background as his father was an officer in the U.S. Air Force. He attended Southwest Missouri State University where he joined the ROTC program and graduated with a major in mathematics and computer technology.

From there he became an Armor Officer in the army and was stationed at Fort Lewis, Washington; he later moved from there to a military computer school in Indiana, and finally requested and received his teaching assignment at Southern.

my fondness of living in Missouri are two reasons why I requested ment, and that his job teaching is other students." basically the same as any other type of occupation found in the see new places and provides you armed services.

training on campus has changed which are the basic qualities to any drastically from the time type of successful career," he says,

"ROTC training allows you to with challenges that can produce The attitude towards military leadership, recognition and poise

'My enjoyment of teaching and of living in southwest Missouri brought me to Missouri Southern. . . . '

Rousselot attended SMSU and to-

"The war in Vietnam was taking place when I was going to school and there was a large amount of hatred towards any type of military programs conducted on campus", he remembers. "Here, "My enjoyment of teaching and however, I have found that the attitude towards ROTC on the campus was favorable when I first arthis teaching assignment at rived, and it has since gotten even Missouri Southern" he says. He is better. Most students who are now quick to add that he is not a taking basic ROTC classes are dorecruiter but an officer on assign- ing so on recommendations of

recalling that over 500 colleges and universities offer ROTC classes to their student population.

Students taking the advanced courses are interested in the training and job security that come with being an officer in the army.

In reacting towards student criticism he replies, "If at all possible, I will try to sit down and talk about how the armed forces are necessary in today's government. I do not try as much to change their minds as I try to just make them accept the military as a basic need

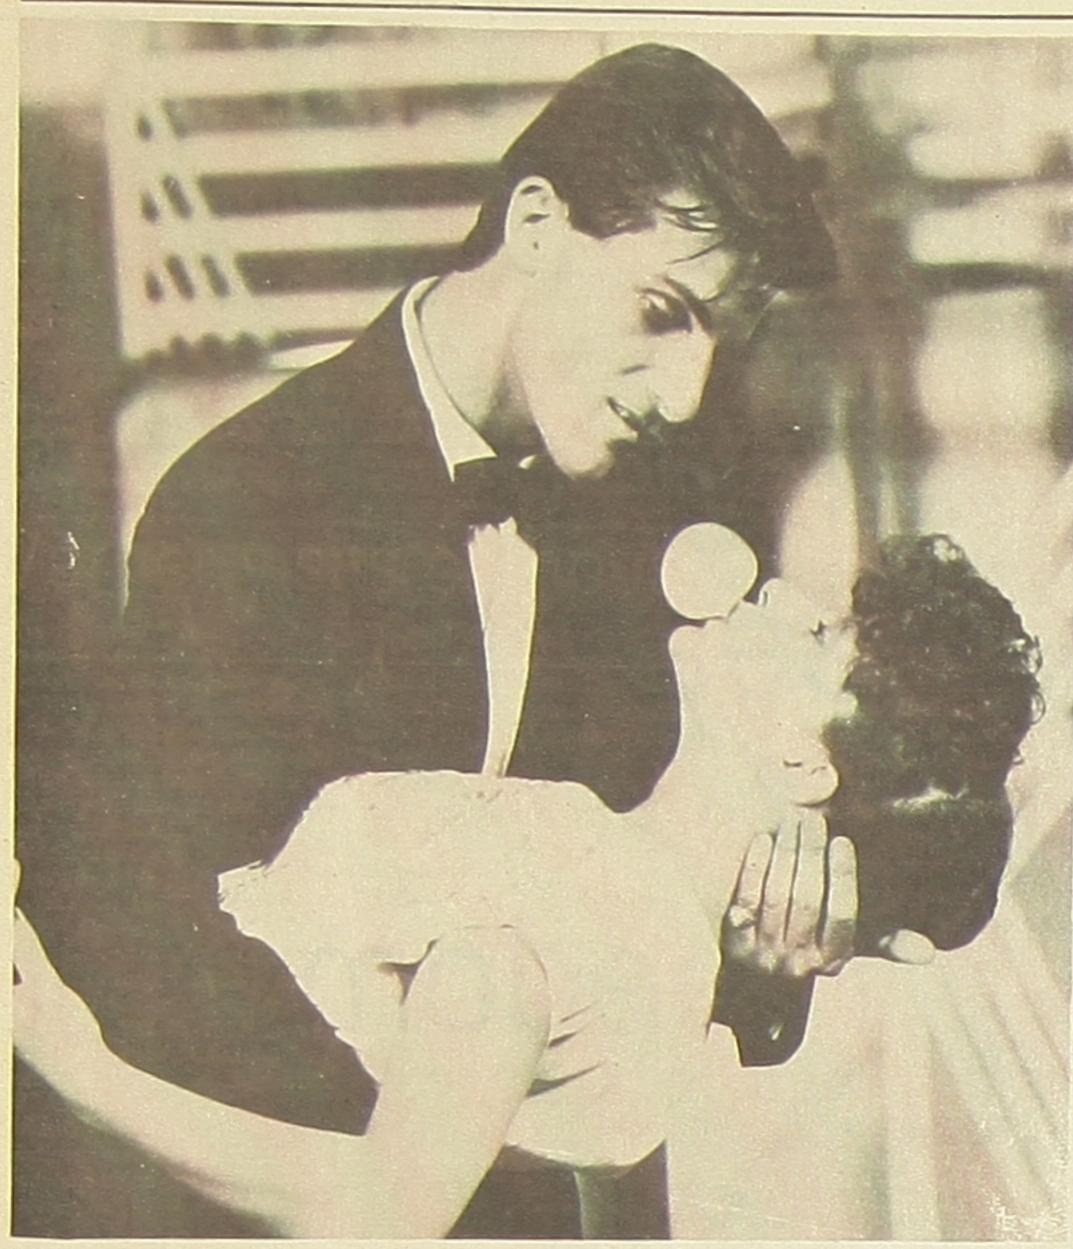

in the function of world affairs to-

Regarding trouble overseas, Rousselot feels that enrollment has been helped by the Iranian crisis in that it has made the general public aware of how fragile international peace is, and the benefits of being an ROTC officer in the Reserves over being an ordinary citizen in case of a draft. His statement is backed by the fact that over 70 percent of all second lieutenants in the army come from the ROTC program.

Rousselot says his next assignment will probably take him overseas; and, although nothing is definite, he believes he will probably be reassigned to a military installation in either Italy or the Netherlands.

As far as future plans go, Rousselot relates "When I retire from the army, I plan on living in Joplin and hope to get a teaching job at Missouri Southern." He will also take more time out to enjoy his favorite pasttimes of maintaining the yard on his six-acre home, working on automobiles and collecting stamps.

Thunder

Country-rock group to perform at all-school cookout Oct. 22

Thunder, a country-rock group from southeast Kansas and southwest Missouri will perform Friday, Oct. 22 at the all-campus cook-out at the biology pond.

Thunder played for the National Governors' Convention, held at Shangri-La resort on Grand Lake and also performed with Nashville recording artist David Houston.

Te band entered the recording industry in August with its first album, Wild Country Boogie, which contains all original tunes.

Verne Leeper, vocalist and songwriter for the group, also plays lead and rhythm guitars and fiddle.

In 1967 he formed a group called The Teardrops. They played throughout the area from teen hops to barn parties, but folded in ly band, The Leepers.

The Leepers were together for approximately eight years, and in 1976, the band won a Farm Bureau contest that sent them to a concert appearance in Atlantic City, N.J. The Leepers then went on to Spain for a two-week tour.

Leeper has performed with Jana Jae and played with Wild Country three years. In the studio he has produced several commercials which are now receiving air play on

radio stations from Kansas City to Wichita. Leeper has co-produced and was chief engineer on Thunder's album, which was recorded at Leeper's studios.

Brian May does vocals, plays percussions, and writes songs for the group. He brings up the percussion end of the band, and adds a touch of originality with his stage

May received his vocal training at one of the top high schools in Kansas. While there, he participated in eight musical productions and had the leading role as Tevye in Fiddler on the Roof. He also received numerous other awards including Outstanding Vocal Musican of his class from sings vocals, and plays bass guid 1973-1976.

Strike up

It takes hours of practice and planning for one half-time show—but it's worth it

There are many hours of planning and practice put in by Pete Havely, band director at Missouri Southern, and the 68-member band in order to put on a successful half-

It takes much planning to chart a band show for it to look and sound good.

"I have done a lot of studying in the area. The main thing is that everything we do on the field must reflect the music that is being played. I try to get drills designed so they complement the music and get the maximum effect.

"Another important consideration is to maintain the audience's interest and to direct their attention to the spotlighted areas, such as soloist and flag features. We try to change the center of interest frequently within each piece played. We try to get the maximum effect from each of our front groups, such as flags, rifles, and dancers," said Havely.

The auxiliary group is made up band members, seven of whom are dancers. Six are flag carriers, and there are three rifle

"The dancers frequently do flag parts of a show needing changes they must also have special dance be made. skills.

are under the direction of Laura Walker. Each member contributes to the design of the routine," said Havely.

Members of the auxiliary group "practice 2 to 4:30 daily, plus many extra hours in the evenings and on weekends," Havely said. The horn line and percussion section practice from 3 to 4:30 daily.

into the selection of music.

"I have several considerations in selecting music. One is I need to select music that will give variety to the program. Another one is I

The rifles in only two weeks time. Almost nothing in one week's time," said

> For the next two shows, which are Oct. 23, (Homecoming) and the last game, Nov. 13, there will be some changes in the shows.

"We are certain we will change the opening number, the production number and the drum feature for the next show. For the final There is also much planning put show we are planning on changing the final number and the drum feature again," Havely said.

At this time Havely has no definite plans for the future, but he did say, "in the future I would like need to select music that is a high to do some more traveling with the quality and music that will provide band. I would like to do some more a challenge to the band,"said high school engagements. I would also like to do another pro football Consideration is also given to halftime show like we did at St. Louis, but traveling takes money."

the band

Pete Havely, director of the Lion Pride marching band, has been drawing praise for himself and for his band since recent appearances at home football games. The precision drills and movements of the band have been compared to 'Las Vegas type shows,' but the performances don't just happen. They require hours of work by Havely in planning, hours more work with the whole band, and still more hours by individual groups within the band.

Car wash planned

Modern Language Club will sponsor a car wash and bake sale from 9 a.m.-3 p.m. Saturday on the Safeway store parking lot at 4th and Rangeline.

Proceeds from the car wash and bake sale will go to help finance the foreign language field trip to Southwest Missouri State University at Springfield to see the National Theater of the Performing Arts Nov. 5.

Vote Today and Tomorrow For Your 1982 Homecoming Queen Choice

> Final Election—Tuesday and Wednesday—9a.m. to 2:00 p.m.

SPORTS

Lisa Cunningham goes up for a spike in Tuesday's match with Southwest Baptist University. Jo Anna Swearingen, Tina Roberts, Nancy Jordan, and Bev Reynolds ready themselves for the return.

Volleyball squad aims for 20th win in tourney tonight

will be going for their 20th victory against Avila or Park College in two district volleyball matches to be held in Kansas City.

their 19th win as they routed Southwest Baptist 15-10, 15-8 and 15-10. All Southern players saw action in the game held in Robert Ellis Young Gymnasium. "Those players have been there and been supporting the team all year and I'm glad that they got the chance to play. I wish that it could happen more often," said Coach Pat Lipira.

Another bright addition to the roster according to Lipira is "the fact that we have everybody back playing for the first time since the first tournament of the season." Nancy Jordan, who has been out with a knee injury, is back and led the netters against Southwest in block points, contributing four. Missy Stone added 15 completed serves and Cindy Lauth had 13 kills. Jo Swearengin led the squad in total points with 38 and in will determine post season play for assists with 15.

The victory over Southwest, along with a successful CSIC con- district teams and will face one ference weekend in Topeka, tomorrow, as they begin play in the brought Southern's record to Missouri Western Invitational, a 19-7-4, standing 4-3 in the con- 19 team double elimination ference and 6-2-1 in district play. tourney to be held in St. Joseph. Southern opened against Wayne, Lipira's outlook is that "We have whom they easily defeated 15-8, played well and placed in all of our 15-11 and 15-7. Saturday Southern tournaments so far. We hope to do faced Kearney, who sits on top of that again this weekend." She addthe conference and is ranked third ed, "We also hope to get some

She contributed 53 against Kearney and 41 against Washburn. Cunningham is ranked third in the conference in total points with a 10.5 per game average.

> Jo Swearengin led in total points in the Wayne match with 33. In the Kearney and Washburn games, she had 15 kills and eight kills. Tina Roberts produced eight kills against Wayne and three blocks versus Kearney. Missy Stone and Nancy Jordan showed strong blocking throughout, having four and five against Wayne and Washburn.

Beginning the second half of their season "with a lot of confidence, after a strong first half, we feel that we can win and win in the district," said Lipira. District play and play in the district tournament the District 16 teams.

Tonight Southern will face two nationally. The Lady Lions salvag- revenge on U.M.K.C., Missouri ed one game but came up short, los- Western and Kearney."

Southern battles JBU to 1-1 tie

Fans were on their feet as the Lions tattled John Brown Universty in soccer yesterday. They battled down to the last minute only to have the game end in a 1-1 tie. Southern started slowly but gained momentum to hold John Brown to a 0-0 tie at the end of regular play. Neither team scored until late in overtime when Mike Bryson reached pay dirt on an essist by Eric Mastrantuono. Two minutes later John Brown's Franklin Olgilvie scored on a ball that took a bad bounce and skipped over goalie Larry Busk.

"They had a sweeper going real strong all game long. He was very fast and hard to get around. We got our goal when he went down," said Southern coach Hal Bodon. We were nervous and they were nervous and any mistake could be costly." The Lions are now 8-2-3 overall this season.

Last Saturday Southern whipped Westminister 8-0. Bryson and Mike Bodon each got three goals. This is the second hat-trick this season for Bryson. Also scoring in that game were Mastrantuono, and John Crimmins.

Saturday, the Lions will be host to Lindenwood at 1:30 p.m. on the Southern field. Tuesday the Lions will be on the road to University of Missouri at Rolla.

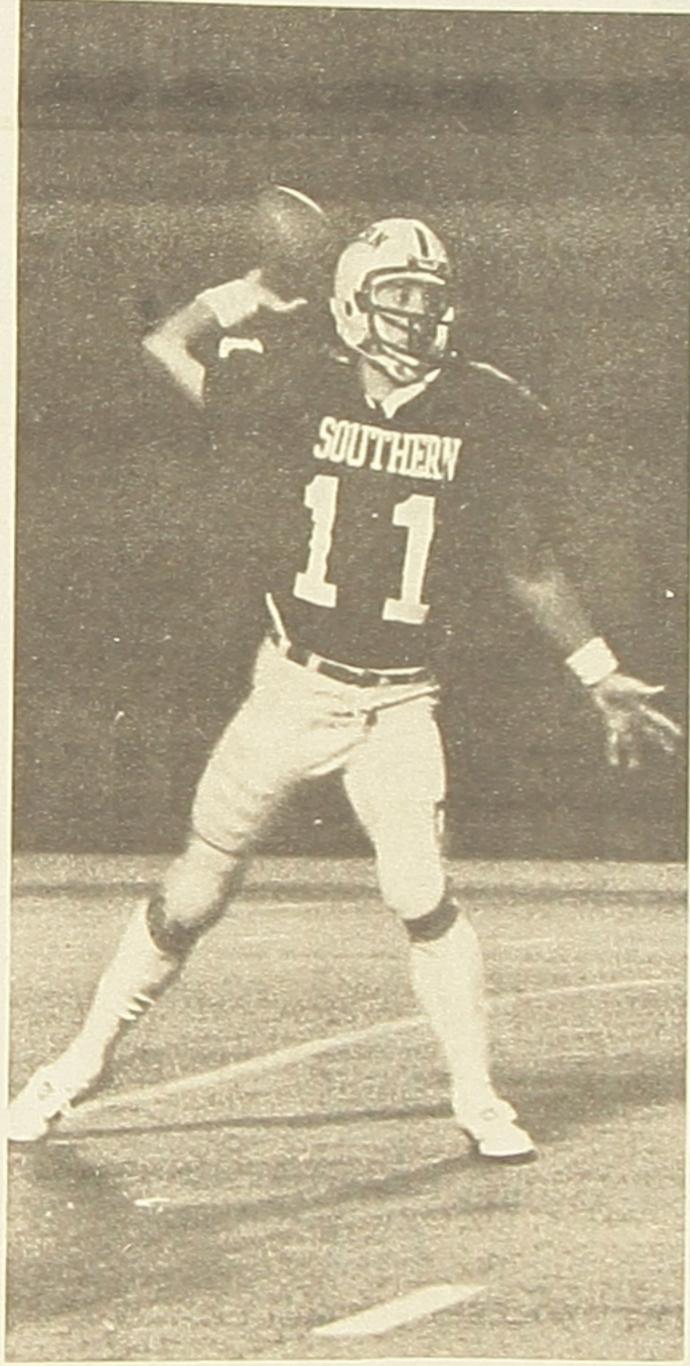

Golf squad plays host to tourney

Mark Stufflebeam drops back to pass as Southern was forced to use reserve quarterbacks when senior Marty Schoenthaler was Injured.

Lions go on road to Emporia for conference game Saturday

Missouri Southern goes on the road this Saturday for a 1:30 p.m. conference game against Emporia State. Both Southern and Emporia are 1-1 in CSIC standings and 3-2 in overall standings.

Emporia State enters the game fresh from a 20-13 victory over Washburn, while Southern fell to Pittsburg 35-15.

the Lions have 1,085 yards rushing and 959 yards passing for a total of 2,044 yards with an average of 408.8 yards. The Hornets of Emporia have 816 yards rushing and 576 yards passing for a total of 1,392 yards with a 278.4 yard average.

Southern leads Emporia in passing offense with 83 completions

out of 155 attempts for a total of times for 633 yards and an average total of 576 yards and 10.3 yards average. per carry.

and completed 28 for three yards. touchdowns and 326 yards for a 81.5 yard average.

has completed 52 out of 107 attempts for four touchdowns and 522 yards for a 104.4 yard average.

Southern's Mark Stufflebeam, after three games, has punted 17

959 yards with 11.6 yards per of 37.2 yards per punt. Bryan carry, while the Hornets have 114 Ferguson, Emporia, has 27 punts attempts and 56 completions for a for 1,081 yards and a 40 yard

In total defense the Lions have Marty Schoenthaler, in in- 544 rushing yards and 666 passing dividual passing statistics, has yards for a total of 1,210 yards for completed 53 of 97 attempts for a 242 yard average. The Hornets three touchdowns and 612 yards have 614 yards rushing and 583 In total offense after five games, for an average of 153 yards. Dan yards passing for a total of 1,197 Chandler has attempted 54 passes yards and an average of 239.4

Offensively, against the Hornets, Frazier says Southern On the Emporia side, Pat Cispre will need "ball control against a good Emporia defense". And on the defensive side, "we need the turnovers from our defense. Emporia has an explosive offense but they have a lot of turnovers.'

Quick TD's garner win for PSU

Pittsburg State, defending champions of the Central States Intercollegiate Conference, scored three touchdowns in the first 16 ninutes of play Saturday night to iefeat Southern by the score of 35-15.

Following the opening kickoff the Gorillas moved the ball 84 yards in five plays and Rodney Lewallen, sophomore fullback, scored with two minutes and fifty seconds gone.

Pittsburg got its second touchdown four minutes and 25 seconds later when George Lawson and Jeff McCleod, Pittsburg tackles, forced a turnover on Southern's first possession.

With 8:35 left in the first period, quarterback Nick Motosko scored from the one-yard line for a 14-0

Motosko passed three yards to ches for 56 yards, for the

G.C. Neloms, and Bill Antonisse added the extra point to make the score 21-0 on the second play of the second period.

Jim Frazier, Southern's head coach, believed that Motosko was an offensive strength of Pittsburg. "He [Motosko] personally controlled their offense; he competed and he executed well".

Junior tailback Cebron Robinson scored two insurance touchdowns, one in the third period and another in the fourth, to aid Pittsburg in the 35-15 victory.

Missouri Southern's Harold Noirfalise scored a touchdown with 3:16 left before the half and the extra point was added by Terry Dobbs.

With 2:54 left in the game quarterback Danny Chandler passed to Steve Sater, who had four cat-

Lions'final touchdown. Chandler then found fullback Darin McClure in the end zone for the two-point conversion.

"We did what we wanted to: we just didn't score enough points. We had the scoring opportunities but failed to capitalize," said Frazier. He cited three things as being the key to the Gorilla victory. "Pittsburg's fumble recovery on our [Southern's] second play, the third quarter score and our failure to score on three opportunities."

The number of penalties was almost equal between the two teams, Southern with seven and Pittsburg with six, but Southern had more injuries. Pat McGrew and Duane Parks were both being considered for surgery to repair injuries received in the game.

Jonathan Richardson, soccer player, claims Brazil as home

"We were rained out of Park Col- Freshman soccer player lege's tournament last Friday and Jonathan Richardson's one major it will not be rescheduled," accordifference from other new students

Bruce Phillips have been named Richardson's parents moved to Southern's top three players this Belo Horizonte, Brazil. His parents are Southern Baptist missionaries, The Lions won one tournament so his father spent a great deal of and placed fifth in another during time traveling to set up new churpay this season. They will resume ches. "The country is mostly Catholic," says Richardson.

"There are 365 churches in one city, one for every day of the year." Richardson was born in

Oklahoma but has lived all of his life in Brazil. He speaks both Portuguese and English fluently but says that "English was the harder

The public schools in Brazil, he explained, have three shifts: morning, afternoon, and evening. The student can choose which shift he wants to attend for the semester. Each student must pass a test to

graduate from first grade. "I knew a 16-year-old who was in the fourth grade," he said.

February and ends in October. The summer is from November to January.

limited. "There are 3,000 students testing for 300 openings. They load the students up in a bus and ship them to a stadium where they take the entrance test. Out in the sun," he said.

Brazil is a military country, but it has few guns of weapons, according to Richardson. When the The school year starts in Argentine crisis developed, Brazil backed Argentina but gave no weapons or men. "As soon as England invaded Argentina, Attendance at universities is everyone was cheering for the British," he said.

Feelings towards Americans have varied. When President Carter tried to impose human rights on Brazil the people became anti-American. "I was watching

Superman II in a theatre one night. When Superman flew across the screen carrying the American flag, everyone there booed."

Richardson and his family moved back to America in time for him to atterd and graduate from Kickapoo High School in Springfield. He is a communication major and plays on the soccer team.

"I do not think I'll move back to Brazil after college. It's a nice place to live, but I'll probably stay in the States," he said.
